# CONTENTS

## Chemically Contaminated Aquatic Food Resources and Human Cancer Risk

**C. J. Dawe.** Introduction: Focus and objectives of workshop ..... 3

### Pathology and Epizootiology

**J. C. Harshbarger.** Introduction to Session on Pathology and Epizootiology ..... 5

**M. S. Myers, J. T. Landahl, M. M. Krahn, and B. B. McCain.** Relationships between hepatic neoplasms and related lesions and exposure to toxic chemicals in marine fish from the U.S. West Coast ..... 7

**R. A. Murchelano and R. E. Wolke.** Neoplasms and nonneoplastic liver lesions in winter flounder, *Pseudopleuronectes americanus*, from Boston Harbor, Massachusetts ..... 17

**J. J. Black and P. C. Baumann.** Carcinogens and cancers in freshwater fishes ..... 27

**C. A. Farley, D. L. Plutschak and R. F. Scott.** Epizootiology and distribution of transmissible sarcoma in Maryland softshell clams, *Mya arenaria*, 1984–1988 ..... 35

**G. R. Gardner, P. P. Yevich, J. Hurst, P. Thayer, S. Benyi, J. C. Harshbarger, and R. J. Pruell.** Germinomas and teratoid siphon anomalies in softshell clams, *Mya arenaria*, environmentally exposed to herbicides ..... 43

**G. R. Gardner, P. P. Yevich, J. C. Harshbarger, and A. R. Malcolm.** Carcinogenicity of Black Rock Harbor sediment to the Eastern oyster and trophic transfer of Black Rock Harbor carcinogens from the blue mussel to the winter flounder ..... 53

**M. C. Mix.** Commentary. Concluding remarks on Session I ..... 67

### Chemistry, Metabolism and Toxicology

**T. P. O'Connor.** Concentrations of organic contaminants in mollusks and sediments at NOAA national status and trend sites in the coastal and estuarine United States ..... 69

**J. W. Farrington.** Biogeochemical processes governing exposure and uptake of organic pollutant compounds in aquatic organisms ..... 75

**J. B. Pritchard and J. R. Bend.** Relative roles of metabolism and renal excretory mechanisms in xenobiotic elimination by fish ..... 85

**U. Varanasi and J. E. Stein.** Disposition of xenobiotic chemicals and metabolites in marine organisms ..... 93

**J. J. Stegeman and J. J. Lech.** Cytochrome P-450 systems in aquatic species: carcinogen metabolism and biomarkers for carcinogen and pollutant exposure ..... 101

**B. P. Dunn.** Carcinogen adducts as an indicator for the public health risks of consuming carcinogen-exposed fish and shellfish ..... 111

**D. C. Malins.** Commentary. Concluding remarks on Session II ..... 117

### Bioassay, Risk Assessment and Epidemiology

**D. Ozonoff.** Chairman's Introduction to Session on Bioassay, Risk Assessment and Epidemiology ..... 119

**J. H. Weisburger and G. M. Williams.** Critical effective methods to detect genotoxic carcinogens and neoplasm-promoting agents . . . . . 121

**J. Huff, J. Bucher, and R. Yang.** Carcinogenesis studies in rodents for evaluating risks associated with chemical carcinogens in aquatic food animals . . . . . 127

**C. B. Cooper, M. E. Doyle, and K. Kipp.** Risks of consumption of contaminated seafood: the Quincy Bay case study . . 133

**D. Ozonoff and M. P. Longnecker.** Epidemiologic approaches to assessing human cancer risk from consuming aquatic food resources from chemically contaminated waters . . . . . 141

**J. Weisburger.** Commentary. Concluding remarks on Session III . . . . . 147

**Steering Committee.** Chemically contaminated aquatic food resources and human cancer risk: retrospective . . . . . 149

## Methods for Environmental Quantitative Risk Assessment

Introduction: Methods For Environmental Quantitative Risk Assessment . . . . . 157

### Methodologic Issues in Quantitative Risk Assessment of Reproductive Health

**D. A. Savitz and S. D. Harlow.** Selection of reproductive health end points for environmental risk assessment . . . . . 159

**A. M. Sweeney and R. E. LaPorte.** Advances in early fetal loss research: important for risk assessment . . . . . 165

**V. S. Hertzberg, G. K. Lemasters, K. Hansen, and H. M. Zenick.** Statistical issues in risk assessment of reproductive outcomes with chemical mixtures . . . . . 171

### Appraisal of Current Methodologies for Measuring Exposures and Health Outcomes

**N. H. Harley.** Methodology issues in risk assessment for radon . . . . . 177

**J. Schwartz, D. Wypij, D. Dockery, J. Ware, S. Zeger, J. Spengler, and B. Ferris, Jr.** Daily diaries of respiratory symptoms and air pollution: methodological issues and results . . . . . 181

**B. Brunekreef, P. L. Kinney, J. H. Ware, D. Dockery, F. E. Speizer, J. D. Spengler, and B. G. Ferris, Jr.** Sensitive subgroups and normal variation in pulmonary function response to air pollution episodes . . . . . 189

**R. Letz.** Use of computerized test batteries for quantifying neurobehavioral outcomes . . . . . 195

### Approaches to Risk Assessment for Hazardous Waste Sites

**G. M. Marsh and R. Day.** A model standardized risk assessment protocol for use with hazardous waste sites . . . . . 199

### Statistical Issues in Quantitative Risk Assessment

**C. R. Buncher, P. A. Succop, and K. N. Dietrich.** Structural equation modeling in environmental risk assessment . . . . 209

**T. A. Louis.** Assessing, accommodating, and interpreting the influences of heterogeneity . . . . . 215

**H. E. Rockette.** Statistical issues in carcinogenic risk assessment . . . . . 223

### Use of Biological Markers and Pharmacokinetics in Human Health Risk Assessment

**D. Hattis.** Use of biological markers and pharmacokinetics in human health risk assessment . . . . . 229

**P. A. Schulte and L. Mazzuckelli.** Validation of biological markers for quantitative risk assessment . . . . . 239

**F. Perera, J. Mayer, R. M. Santella, D. Brenner, A. Jeffrey, L. Latriano, S. Smith, D. Warburton, T. L. Young, W. Y. Tsai, K. Hemminki, and P. Brandt-Rauf.** Biologic markers in risk assessment for environmental carcinogens ..... 247

**M. C. Hatch and G. Friedman-Jimenez.** Using reproductive effect markers to observe subclinical events, reduce misclassification, and explore mechanism ..... 255

**C. J. R. Hogue and M. A. Brewster.** The potential of exposure biomarkers in epidemiologic studies of reproductive health ..... 261

## Modeling Methodologies for Carcinogenic Risk Assessment

**S. Mazumdar, C. K. Redmond, J. P. Costantino, R. N. Patwardhan, and S. Y. J. Zhou.** Recent developments in the multistage modeling of cohort data for carcinogenic risk assessment ..... 271

**D. Krewski, D. Gaylor, and M. Szyszkowicz.** A model-free approach to low dose extrapolation ..... 279

**C. Chen, H. Gibb, and A. Moini.** Models for analyzing in initiation-promotion studies ..... 287

**J. D. Wilson.** Biological bases for cancer dose-response extrapolation procedures ..... 293

**S. C. Morris.** Commentary: Trends in quantitative cancer risk assessment ..... 297

## Contributed Articles

**A-A. M. Kamal, A. Ahmed, K. Saied, and M. Metwally.** Quantitative evaluation of ECG components of workers exposed to carbon disulfide ..... 301

**E. L. Kruzel, A. L. Lafleur, A. G. Braun, J. P. Longwell, W. G. Thilly, and W. A. Peters.** A high-yield sampler for toxicological characterization for complex mixtures in combustion effluents ..... 305

**P. A. Baghurst, E. F. Robertson, R. K. Oldfield, B. M. King, A. J. McMichael, G. V. Vimpani, and N. R. Wigg.** Lead in the placenta, membranes, and umbilical cord in relation to pregnancy in a lead smelter community ..... 315

**Letter to the Editors**

**J. C. Tohá and I. Jacques.** Managing the greenhouse problem ..... 321

**Instructions to Authors** ..... 323

**Published Volumes of EHP** ..... 325
